ENCLOSURE (1)

3/FLH/bkb
57505. CHAPLAINa. Sunday Services

(1) Catholic Services. Mass was held every Sunday Morning in the Chapel until the Battalion moved into the Arizona on 17 November. The Catholic Chaplain also held Mass at Phu Loc (6), Liberty Bridge, and Hill 37. A total of 17 Catholic services were held during the month with 442 attending and 393 Communed. After the Battalion moved into the Arizona on 17 November no Catholic Sunday services were held. The Catholic Chaplain returned to the rear and held services for 3/5, 1/5 and 3/1.

(2) Protestant Services. While the Battalion was on Hill 65, Protestant Services were conducted every Sunday by Chaplain Lagor the 3/5 Chaplain. In the field Protestant Services were held by Chaplain Keyser. Chaplain Lagor was unable to make it to the field on the other Sundays because of transportation and weather problems.

b. Weekday Services

(1) Catholic Services. Mass was held every day while the Battalion was on Hill 65. In the field Mass was held every day that weather permitted. The Chaplain conducted a total of 27 weekday services with 508 attending and 377 communing.

(2) Protestant Services. Chaplain Lagor of 3/5 conducted a pre-deployment service for the protestant personnel on 15 November.

(3) Prayer Service. A non-denominational prayer service was held every evening on Hill 65. This service was discontinued when the Battalion moved into the field.

c. Memorial Services. On 10 November, the Marine Corps Birthday, and Requiem Memorial Mass was said for all deceased members of the Battalion. Three Memorial Services were held in the field, 2 for Echo Company and 1 for Hotel Company.

d. Red Cross Cases. The Chaplain referred 3 cases for Red Cross action.

e. Counselling Interviews. The Chaplain interviewed 138 men during the month. This includes personnel from 1/5, 3/5 and 3/1.

f. S-5 Assistance. The Chaplain turned over 50 lbs of clothing to S-5 for distribution to the refugees in the 5th Marines area of operations.

g. Hospital and Brig Visitation. One hospital and one brig visitation was made during the month of November.

ENCLOSURE (1)

PART II

NARRATIVE SUMMARY

The reporting period began with Echo Company located at Hill 52 and Fox Company at Hill 65. Both companies provided security for their positions and conducted aggressive platoon sized combat patrols and night ambushes in the Battalion's assigned area of operations. During the period 1-8 November, the Battalion Command Post, Hotel and Golf Companies continued on the Regimental unnamed operation in the Northern Arizona. The success enjoyed by the Battalion resulted in the Regimental Command decision to continue with Phase II on 2 November. Hotel and Golf continued aggressive company sized Search and Destroy operations. Numerous bunkers, dud rounds and booby traps were found and destroyed. Rice caches were evacuated to An Hoa along with POW's and suspects. With the exception of two occasions, when contact was made with 15-20 VC/NVA, activity was limited to contact with small sized units of 3-4 on rice gathering missions. On 4 November, Fox Company and Hotel Company exchanged positions. On the morning of 8 November, the Command Post, Fox and Golf Companies were helilifted to Hill 65.

During the period 9-16 November the Battalion remained in our assigned area of operations with all units conducting platoon sized combat patrols during the day and squad sized ambushes at night. On 13 November Golf Company conducted a company sized combat patrol in the northeastern portion of the Battalion's assigned area of operations. No significant contact was made during the period 9-16 November.

On 17 November the Battalion Command Post, Golf and Fox Companies were helilifted to coordinates AT858579. Alpha Company, 1st Battalion, 5th Marines provided landing zone security and came under operational control of the 2nd Battalion upon completion of the lift. On 171900H, the Command Post, Fox and Alfa Companies conducted a night move to the vicinity of AT826537 to begin a search and destroy operation in the northwestern Arizona in grid squares 8254, 8354 and 8454. On the 18th, Fox Company swept east to coordinates AT832544 and provided a blocking force for Golf who swept west from AT852547 where they had night marched the previous evening. Alfa Company and elements of H&S Company provided Observation Posts, and Patrols and Ambushes along the lake from AT828543 to AT846524. Caches of rice were found and evacuated to An Hoa. Activity was limited to sniper fire. On 19 November the Battalion (-) with Fox, Golf and Alfa swept to grid square 8755 and then on the following morning moved to Football Island. On the 21st Golf conducted a one day search and destroy operation with Fox and Alfa blocking on the northern bank of the Thu Bon River and elements of the 3rd Battalion blocking on the southern bank. This action resulted in 6 VC/NVA KIA and 2 POW's.

On 22 November the 2nd Battalion exchanged areas of operations with the 1st Battalion and the Battalion Command Post was established at coordinates AT845495. Operational Control of Alfa Company reverted back

3/FLH/bkb
5750

to the 1st Battalion. All of the 2nd Battalion's units then began intensive platoon and squad sized patrols within the Arizona area. Daytime platoon ambushes were established along known infiltration routes in the northern portion of the area of operations.

On 26 November the Battalion (-) consisting of a Command Group, Golf, Fox and Hotel Companies conducted a night move to grid square 8851 and the following day, with Fox and Golf blocking to the north of Football Island and Lima Company 3rd Battalion, 5th Marines blocking to the south, Hotel Company commenced a Search and Destroy operation of the island. Highlights of this operation were 6 VC/NVA KIA and the capture of 23 POW's. Of the 23 IFF confirmed 7 to be NVA and 6 were VC, two of which were officers. During this three day operation, Echo Company remained at the established Battalion Command Post for security and to conduct the activities in that area.

After the exchange of areas of operations on the 22nd the Battalion suffered an increase in casualties due primarily to boobytraps.

PART III

SEQUENTIAL LISTINGS OF SIGNIFICANT EVENTS

A. TOPICS

1. Personnel and Administration

a. Strength. The Battalion strength at the beginning of November was 36 Officers and 1143 enlisted. At the end of the month, the strength was 39 Officers and 1182 enlisted. The Battalion joined 5 Officers and 116 enlisted. Two Officers and 77 enlisted were dropped from the rolls. Casualties sustained by the Battalion during the month of November were as follows:

KIA	BATTLE		WIA/DE	NON-BATTLE		TOTAL
	MIA	DOM		MIB	NBC	
8	31	0	16	0	70	125

b. Discipline, Law and Order. During the month, the battalion legal office processed 4 Battalion Commander's Office Hours. Courts-Martial for the month totalled 2 consisting of 1 General Court-Martial and 1 Special Court-Martial. Twelve company office hours were held. Personal claims arising as a result of the fire in E Company supply hut were processed and forwarded to III MAF legal.

c. Postal. Mail for the month of November was normal.

d. Awards. The Battalion processed 52 awards which were 47 Navy Achievement Medals and 5 Navy Commendation Medals. Fifteen awards were received and presented with appropriate ceremony during the month and 8 awards were readdressed and forwarded.

ENCLOSURE (1)

3/FLH/bkb
57502. Intelligence

a. Enemy. Contacts during the reporting period were, for the most part, with small groups of 1 to 7 individuals. No contacts of significant size or with known units other than individuals from units on rice gathering details were encountered. The only enemy unit reported in the area of operations is the 083rd Battalion located in the vicinity of AT8755. Although POW's from the 575th & 577th Artillery Regiments, 141st Regiment, C-28 Medical School and the 69th Battalion were captured. These units are presently plotted as being headquartered in the An Bang Mountains and northwest of Charlie Ridge.

b. Weather. The weather for the month has been favorable for the most part. Although rain was received off and on most of the month, no large amounts at any one time were received and had no real effect on movement. The continuous light rain for 2 or 3 days at a time did create some problems in crossing streams and some rice paddies. A total of 10.09 inches of rain was received for the month. Temperatures for the month have been lower due to the arrival of the monsoons. During the last week the high average temperature was 74 degrees while the night time low was 68 degrees. The low temperature combined with the rain made conditions uncomfortable for the troops.

c. Terrain. Terrain for the first 2 weeks of the month consisted of the low lands on either side of the Vu Gia River. These low lands were made up of rice paddies with patches of high ground covered with tree lines, hedge rows and grass. The boundary on the north ran up to the crest of Charlie Ridge which is covered with brush and grass. After moving into the southern and central Arizona, the terrain took on the features of rice paddies 50 to 1000 meters wide with streams both fordable and unfordable. Vegetation included tree line, hedge rows and grass covering the majority of the high ground with rice potatoes, corn and beans in the lowlands.

3. Organization and Operations

a. The following units were attached or detached from the Battalion during the month of November:

Company A, 1st Battalion, 5th Marines OFCON to 2nd Battalion, 5th Marines from 17 to 22 November 1969.

Operations consisted of two to three company search and clear operations in the Northern Arizona and on Football Island.

b. Supporting Arms

(1) Tactical Air Support. Air Support for the Battalion totalled 18 Tactical Air Strikes and 6 Beacon Flips. The Battalion utilized 34 Aerial Observers and 6 Flare Ships. One Gunship supported the Battalion. Over 1300 meters of tree/trench line were destroyed, 17 structures were destroyed and 11 were damaged. A total of 130 bombs were dropped with a

7

ENCLOSURE (1)

3/FMH/blcb
5750

total of 50 tons of ordnance dropped on targets. Thirteen enemy were killed by air and 1 enemy was wounded.

(2) Helicopter Support. The Battalion utilized 3 troop lifts with approximately 1500 combat Marines moved. A total of 122 Marines and 19 Civilians were evacuated during the month. Average time for emergency evacuations was 55 minutes, priority evacuations took 25 minutes and routine evacuations averaged 20 minutes.*

(3) Fire Support. Rounds expended for artillery, including harassing fires, interdiction fires and fire missions were 4,760. For SLM mortar missions 1,915 rounds were expended. The integrated observation devices accounted for 76 enemy killed.

4. Schools and Training. During the month of November 115 Marines were processed through indoctrination training prior to their deployment to the field. General Military Subjects Training was conducted each Saturday afternoon at the Battalion rear in An Hoa. Also, rifle companies took advantage of slow periods to further the training and indoctrination of their members. Training consisted of the following topics and hours spent:

a. Officer and Staff School

Mines and Booby Traps	1/2
Defensive Measures	1/2

b. Training conducted by S-3 at An Hoa

Fam Firing T/O weapons	1
Weapons Safety/Care & Cleaning	1
Drug Abuse	1/2
Communications	1
Patrolling & Ambushes	1
Handling of POW's	1/2

c. Training conducted by rifle companies

Weapons Safety	2
FO procedures	6
First Aid	1
Patrolling & Ambushes	8
Leadership	4
Map & Compass	6
Night Movements	12
Platoon Tactics	10
Helicopter Support	7

Division and higher level schools attended by members of the Battalion were as follows:

* One Emergency medevac from Charlie Ridge took 6 hours due to weather and darkness.

3/FLH/bkb
5750

Division Leadership School	15
Land Mine Warfare School	50
Basic Ammo Tech. School	2
Career Planning School	1
Kit Carson Scout School	2
16mm Projectionist School	2
I Corps Generator School	3
HST School	2
Fiscal Clerks School	1
S-4 Orientation	1

5. Logistics

a. General. The month of November proved to be a month in which the S-4 Section's capability and capacity to coordinate, organize, control and direct the support/supply of the forward operational elements of the Battalion, as well as the Battalion and company headquarters elements located in the rear, were well tested.

The major event of the month affecting the section was the transfer of TAOR's with the 1st Battalion, 5th Marines and the associated transfer of the Hill 65 cantonment effected on 22 November. Originally scheduled for 15 November, a postponement of the transfer to the later date was necessitated due to operational commitments. A major effort at all levels of command and extensive coordination and preparation facilitated the relative ease in which the transfer was conducted.

b. Personnel. The release from the requirement of operating/supporting two cantonments allowed a reduction in the number of personnel required for effective operational procedures. The Logistics Chief (a Gunnery Sergeant) and an assistant, departed for the field with the Battalion (forward) Headquarters operational element to coordinate and control the field supply/resupply effort. From 13-15 November the S-4 Officer attended a course of instruction given by the Division G-4 office for newly joined/appointed S-4 logistics personnel. The course was highly beneficial and very informative. Throughout the course of the month preparations were made for the replacement and training of new personnel and cross training of previously assigned personnel preparatory to the transfer of a number of Marines to COMUS during the ensuing month. The NCOIC of the Battalion LOC and many of the attached company representatives will rotate to COMUS during the month of December. The replacement for the NCOIC representative at the LOC has attended HST school and been operating in the capacity as assistant for a period of 10 days, with gradual increase towards assuming total responsibility. Additional company representatives are in the process of receiving OJT in their future duties as members of the Battalion's LSU team. Two S-4 personnel are scheduled to attend HST school during the month of December. As a result of the above mentioned preparations, a smooth unaffected continuance of the LOC operation is expected with no loss of efficiency due to transfer of personnel.

3/FLH/bkb
5750

c. Administration. A number of discrepancies were noted in format and content of information received by and provided from the S-4 office. The maintenance of outdated directives, references and files has continued to hinder the administrative effort of this office. The updating of the aforementioned material is being effected. Continued effort and diligence will be expended to update and complete the filing and directives system.

d. Cantonment Structures and Facilities. The return of some of the headquarters personnel and equipment as a result of the transfer of the TAOR's posed a temporary billeting problem. The swift approval of the construction of a 20x52x8 foot bunker for the housing of the BAS treatment room and doctor's office and planned construction and requisition of four additional Sea Tuts for the storage of medical supplies, controlled medicines, and billeting of naval personnel will, upon completion, provide the Battalion (rear) with a safe, sanitary, centralized facility with conditions conducive to the treatment and care of Marine personnel. The movement from Hill 65 also will necessitate the construction of three bunkers at the An Hoa Cantonment for the storage of a 5-10 DOA. Previously, a 5-10 DOA for the Battalion Rear was maintained at the 2/5 An Hoa Cantonment with the remainder in bunkers at Hill 65. The repair/replacement of seven tent decks within the cantonment and the wiring of two tents used by BAS aid in the maintenance and improvement of the existing billeting and storage areas. The relocation of the S-2 Section within the COC bunker improved the security and protection of the personnel and documents and allowed better utilization of existing structures; i. e. the temporary BAS is presently located in a Vietnamese structure previously used by the S-2 Section.

e. Mess Operations and Facilities. With the return of the mess equipment and cooks from Hill 65, the battalion's mess organization is again functioning as a single unit. The interior appearance and conviviality established by the addition of four-man tables, painted work, and dividers has brightened the appearance considerably. The mess facility is furnishing sustenance to elements of 1st Battalion, 5th Marines, 3d Battalion, 5th Marines, Whiskey Battery, 11th Marines and LSU personnel and those transient Marines within the vicinity who patronize the messhall on various occasions. An average of 470 men are fed per meal. The menu is dependent upon the supplies available from the daily convoy. The 28 day menu is adhered to as supply conditions allow. Night rations are issued to Marines standing bunker watch.

f. Transportation. Vehicular and air transport are dependent upon the whims of nature, for the most part. The various modes of vehicular transport are adversely effected (mechanically and operationally) by rain and mud; air transport by rain and cloud coverage/ground fog. Hence the supply/resupply capability/effort is proportionally effected. The return of the forward elements from Hill 65 has reduced the vehicular commitment and should have a marked effect towards reducing the deadline status of organic vehicles. Eight trucks provided on 14 November and 16 trucks provided on 15 November enabled elements of the Battalion (forward) to transfer from

3/FLH/blb
5750

Hill 65 to the An Hoa Cantonment in an expeditious manner. Subsequent transportation provided through 22 November completed this movement. On 22 November four M-116 HUSKY's and one M-733 armored HUSKY were attached to the battalion for operations in the "Arizona" territory. One vehicle has been downlined since 23 November for the loss of a road wheel. Arrangements for replacement have been completed; however, inclement weather has hampered the transfer.

g. Supply. During the month of November there was a shortage of certain items of 782 gear due mostly to resupply difficulties. As the month ended, most of the short items were being received from DaNang.

6. Medical. On the 15th of November the BAS resituated back to the Battalion rear area in the An Hoa Combat Base from its forward position on Hill 65. The sick bay, supply, and records section are now in temporary structures awaiting construction of a sick call bunker and Sea Huts for the supply and records section. Present strength of the BAS is as follows: 1 Medical Officer, 1 Battalion Chief, and 16 Hospital Corpsmen. Letter companies are given medical support with six-seven hospital corpsmen. A program of general immunization was conducted on battalion personnel. MedCaps have slackened due to the move but will resume on a regular basis around the An Hoa area. Company corpsmen have been initiating limited medical treatment to the Vietnamese civilians in the field. The present Battalion Operation in the Arizona, however, is fully utilizing and intermittently taxing on our present roster of field corpsmen which is below the optimum company allotment. Transfers and multiple Purple Hearts have exceeded our replacements from Division.

- a. Malaria: 9 cases.
- b. Venereal Diseases: 20 cases; 1 Syph., 9 Chancroid, 9 GC, 1 NSU.
- c. Rabies: No animal bites were reported.
- d. Heat Casualties: No heat casualties were reported.
- e. Routine Medical Complaints: Dermatitis - 245, Gastroenteritis - 25, Orthopedic - 68, Ear disorders - 6, Foot disorders - 65.
- f. Statistics: A total number of 812 patients were seen averaging 27 per day.

7. Communications. On 16 November the Battalion began its move into the Arizona. Radio transmission, though hampered by interference, has been continuous and reliable. "Dead Spots" in the Arizona do exist but no reports have been submitted to indicate that the Battalion has encountered any. To enhance transmission, the antenna, RC-292, has been recommended for use on the Regimental and Battalion Tac nets.

3/FLM/blb
5750

a. Equipment and Preventive Maintenance. Control of radio equipment coming in from the field for replacement and repair has created and will create problem areas in logistics. As in past operations in the Arizona, each letter company including the Command Group must establish a system of control and communications with the rear Command Post to prevent any equipment, especially communications equipment, from being damaged or lost. Preventive maintenance and direct supervision of maintenance procedures must be stressed at all levels of command. Due to the lack of proper employment of waterproofing techniques, one radio set, AN/PRC-77, was returned from the field and deadlined for repairs due to water seeping into the set. Continued operations in the Arizona and non-soon weather makes it imperative that all section leaders instill a sense of responsibility and the need of proper maintenance in his subordinates.

b. Operations. A change in frequencies and call signs was made on 10 November 1969. The change was made without any difficulty. Interference from an unknown source appeared on the Battalion TAC and ADLIR nets but did not hamper or disrupt communications. By employment of proper radio operating techniques, the operators were able to transmit through the interference. The Flip-Flop of TAOR's with the 1st Battalion, 5th Marines was completed without interruption in communications. Personal liaison and a formal turnover file was made for the transfer of Hill 65 to the 1st Battalion, 5th Marines. Rewiring of electrical power lines throughout the cantonment (rear) was completed by the Battalion wiremen. The Battalion Aid Station was relocated from Hill 65 to the rear and required a complete rewiring of the electrical system. Throughout the cantonment, rewiring of working and living areas, installation of light fixtures and the IE-10 at the mess hall was accomplished.

c. Personnel. The once critical status of personnel has been alleviated by the influx of communications personnel from the 3d Marine Division and replacements from CONUS. The majority of the personnel have been wiremen. Within the Battalion, reassignment of personnel has been made to support the Clara Mortar Platoon and Tactical Air Control Party with communications personnel. The message center is now up to T/O with the addition of three school-trained message center men. SSgt Principe reported in and has assumed the billet of Radio Chief.

d. Communications in General. The communications system, within the Battalion, continues to be reliable. The wire system continues to be satisfactory in operations considering the age and continuous usage of the switchboards. The unending task of installation and repair of wire lines and terminals continues. The repair facilities at FMSG-A has not been able to acquire the much needed repair parts therefore the fourteen radio sets AN/PRC-25 the Battalion tech. shop turned in are still on deadline and have been for about two months. This number on deadline drastically affects the combat efficiency of the Battalion.

3/FLH/blb
5750

8. Civic Action. On 6 November 1,000 lbs of lumber (cans boxes) were given to Ho Nha Hamlet (AT803545) and Truong An Hamlet (AT869574).

a. Medical Assistance. A MedCap was held at Nghia Tay Hamlet (AT868574) and 48 persons were treated. A MedCap was also held at Truong An (AT869574) and also treated 16 persons in the BAS on Hill 65.

b. General Valt Scholarships. Scholarship funds in the amount of 9,000\$VN were distributed to 18 elementary level students. Each student received 500\$VN for the month of November.

9. Statistics for the period:

NVA:	48 KIA	11 POW's	
VC:	74 KIA	7 POW's	8 Returnees

a. Weapons Captured

1 M16	3 SKS's
9 AK-47	1 B40 Rocket Launcher
1 M1 Garbine	2 .45 Cal. Pistol
3 9mm Pistols	

b. Equipment Captured

14 Packs	200 ft. Rope
2 First Aid Packets	1 Rubber Boot
2 Cartridge Belts	2 E Tools
2 NVA Helmets	1 Gas Mask
1 Poncho	
1 USMC Helmet	
1 USMC Pack	
1 USMC Poncho Liner	

c. Ordinance Captured

14 Chi Com Grenades	2 105mm rds.
3 500 lb bombs	1 8" rd.
1 dud rocket	1 155 rd.
4 M79 JS rds.	7 M26 Grenades
9 60mm rds	100 rds AK ammo.
2 82mm rds	

d. Food Caches

5000+ lbs Rice	100 lbs Potatoes
966 lbs Corn	50 lbs Cabbage
29 Cans Fish	5 cans milk
1 lb salt	5 gal. Rum

5/FLE/blk
5750

c. Miscellaneous

30 lbs documents	1 pr. eye glasses
150 lbs uniforms & clothing	1 pr Sandals
25 lbs medical gear	1 Straw Hat

f. Boobytraps
