12 May 69

Dear Mom & Dad,

I've spent the past four days in An Hoa at the NSA hospital. I blacked out and had a heat stroke. My temperature shot up to 105° and after I cooled off by cold showers and air conditioning, ice packs, etc... I went down to 97°F. for two days! I slept for three days only waking long enough to eat and make head calls! Tell me I wasn't exhausted and tired. I was unable to write you while I was in the hospital, I didn't have any writing equipment. I got discharged from the hospital today and am now in route back to An Hoa and from there back to the bush with the company.

I'll be able to write you a longer letter tomorrow. However for now I'll have to close. Just to let you know that I'm alright.

Love

Larry
