at Phu Loc 6

30 June 69

Dear Gary,

Haven't heard from you except for once since you've been home. Must be they keep you real busy all of the time.

I haven't been in the action in a month and a half now. I sure hope that it stays that way now until I get to come home. Right now I do absolutely nothing but blow a bugle for colors (flag raising and lowering during the day) besides playing taps every evening. All the rest of the time I have to myself. No one bothers me or even tells me to do anything. It's really vice. I can't figure out why they don't tell me to do something.

My company lost 10 men in a sweep day before yesterday. I'm not with them anymore rather I stay at Phu Loc 6. I am a part of the headquarters platoon of the battalion. It beats playing "grunt."

Have you seen or heard from your girlfriends since you've been home?

Tell me, how does it seem to be home again? I sure wish that I were home instead of here.

It's been raining here since 9 P.M. this afternoon. It's 7 o'clock now and it looks like it's going to rain all night long.

I've got to play my bugle in the rain tonight. I hope I do better than last night.

Write and tell me all about your job and what exactly do you do. Also how much do you make an hour? My job at Weber Aircraft is still waiting for me when I return after I get out of the Marine Corps. Do you & Butch work together? You're not as busy as you were last year are you?

How does the Chevy run? I hear you put another engine in it. Is the body still in fair shape? I doubt it. How's the steering and the suspension in it? It was about to fall apart

when I drove it last. Maybe it lightened up over the long winter.

I can't decide whether or not to buy a Nova Super Sports Coupe 1970 model, a Plymouth Road Runner 1970 model or a Chevy Camaro Super Sport. Which one would you pick? They all run about the same in price. The Road Runner maybe \$800 or so more.

Well I've got to run. Got to go play my huckle.

Write when you can.

Your brother,
Larry

P.S. How's the youth groups doing?
