12 July 69

Dear dad,

I got your letter today. It's the first piece of mail that I've gotten in 14 days! I guess everyone has forgotten that I exist as something! The Potkins also sent me four little Daily Bread's and two bulletins of the church. They came when your letter got here.

Is the body of the old Chevy even worth putting another new motor? How about the transmission, rear end, front suspension and the brakes? Sorry to hear that your Ford is about ready to fall apart. I've had my experience with Ford's. They are just no good. VW's are ok but too light for the road. Also to expensive for what they are worth. That's why I've decided to go out and buy me a brand new Chevy Camaro or a Super Sports when I get home in February.

I heard on the news that you were having storms. We rode through a typoon day before yesterday myself. Rain, Rain, Rain. I've never seen it RAIN so HARD.

We've had our share of trouble with the enemy. Things have been slacking off a bit now. They have gone to the mountains to regroup and try their fall offensive and last big offensive of the war.

We had a couple guys get killed two nights ago from some gooks sneaking up from behind. They were on a 4 man killer team.

The weather stay between 80° to 120° every day. Even when it rains it stays to 82° or so degrees.

Let me know when you plan on going to Seattle. I want to go with you. Maybe I'll fly up to meet you. Do you plan on flying or driving there?

Yes I got your last box with the pictures of the church. I mailed them back, didn't you get them yet?

I think the church looks really great.

Well bad, write when you can.

Love,
Larry
